

IF I WERE YOU

1. **Read** the rubric to know what to expect!
2. **Open** Keynote and choose whatever **Master template/design** YOU want!
3. **Create** about **17 new** blank slides
4. **Do** the easy slides first!
 - Title with your name (Why Do Artists Create)
 - The End
 - Table of Contents (2 slides), *but DO NOT fill it out yet! Wait till the end!*
5. **Read** the whole article *once* just to get a *feel* for what it's about
6. **Start** with **Slide 4** (which is the **first** paragraph) and ask yourself, "What is this paragraph about?" The answer you tell yourself is the **title** of your slide!

7. Type the words for *ALL* the slides **FIRST**.
Add the **photos** *afterwards*! Adding photos
always takes longer!
